## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Specification***

It is unclear as to whether the term "Hologic Active X Control" is a trademark. The examiner will consider such a term to be a trademark unless instructed otherwise by the applicant.

The use of the trademark Hologic Active X Control has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

***Claim Rejections - 35 USC § 112***

Claims 7-12,15,17-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 7,8,11,15, the term "the image comments field" lacks antecedent basis. In claim 8, "the analysis" lacks antecedent basis. In claim 10, "A system" should be "A method". In claim 12, the use of the trademark "Hologic Active X Control" renders the claim vague and indefinite. In claim 18, line 6, "the image data field" lacks antecedent basis. In claim 23, line 4, the use of alternative language renders the claim vague and indefinite.

Claim 12 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. It is unclear as to what steps are defined by "Hologic Active X Control".

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3737

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Mortimore et al. The claims are directly readable on Mortimore et al in that the quantitative data is considered to be placed in a field other than an image field.

Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Finger. The claims are directly readable on Finger in that the quantitative data is considered to be placed in a field other than an image field.

### ***Response to Arguments***

Applicant's arguments filed 2/26/02 have been fully considered but they are not persuasive. The quantitative data provided in Mortimore et al and Finger is considered to be placed in a field other than an image field.
